SAMPLE SEXUAL HARASSMENT SURVEY

This is a sample survey to help you better understand the extent to which sexual harassment is a problem within your organisation.

Some Survey Tips

• Make this an anonymous survey to encourage responses. Do not ask for names or any information that could give a person’s identity away, such as job title.

• This template is designed for current employees, but you could tweak it to include past employees too.

• Do not just target women, send it out to everyone.

• Always define the terms you are using so that there is no confusion about what constitutes ‘sexual harassment’ or ‘workplace’. This is especially important if you have not done any sensitisation training yet.

• Use an online survey manager like SurveyMonkey which can help you to analyse data.

• Publish the results of the survey within your organisation.

• Repeat the survey every one to two years to monitor progress.

Survey Introduction

Please take a few moments to answer this anonymous survey on sexual harassment in [INSERT COMPANY NAME]. Your participation will help us to understand the nature of the problem in our organisation. We appreciate your honesty and assure you that your answers shall remain anonymous.

For the purposes of this survey, we organise sexual harassment into three categories:

Verbal/Non-Verbal Harassment

When someone gives another person unwanted sexual attention through verbal or written comments or conversation, or through noises or actions at a distance.

Physical Harassment

When someone uses physical pressure or force to have sexual contact with another person against their will, e.g. groping, massaging, holding hands.

Rape

The most severe form of physical harassment involving non-consensual penetration, no matter how slight, of the vagina or anus with any body part or object, or non-consensual oral penetration by a sex organ of another person.

We define ‘workplace’ as:
